## Vision Document

The Vision Document keeping in view various strategies and goals set out for the Institute comprises of the educational, training programs, patient care, Research, etc shall be framed in the following manner for the proposed 7 Years Strategy from 2020-2021 to 2027-2028.

The main objectives and functions of the Institute is to produce Graduates, Post-Graduates and Post-Doctoral Level Courses including a Diploma Course and Short-Term Training Courses in Unani. The Institute is likely to import Short-Term Courses on basics and fundamentals of Unani Medicine for foreign medical and para-medical personnel interested to know and study about Unani Medicine and also to help introduce and develop Unani Medicine in the health care needs of their countries.

For this, the Institute provides sufficient seats in its Post-Graduate and Post-Doctoral Courses for foreign nationals of any country.

Presently, the Institute is giving admission in PG Unani for 57 students and Subject to the availability of Guide, Maximum sealing of 6 scholars at time in the two departments at Doctoral Level annually. The bed capacity of the hospital is 180. After establishing all the 14 departments in PG Unani the intake of the students increases to 106, for PhD it will be upto 48 and the strength of bed would be around 250. The Institute is having an established well maintained Central Laboratory to cater the needs of patients/hospital.

The main research activity is limited to PG and PhD students, though teachers of the Institute are also involved in Short-Term Research activities. The Institute has also facilities for undertaking any research project from outside agencies interested in clinical trials.

In the coming years, the Institute proposes to enhance and enrich its infrastructure facilities like enhancing Hospital space enhancing patient facilities enriching the Laboratories, Museums, etc. Further developing the Drug Standardization and Research Laboratory, Upgrading the existing Pharmacy manufacturing medicines to meet the maximum needs of IPD and OPD patients, Upgrading the Ilaj bit Tadbeer Unit to provide high class Ilaj bit Tadbeer and Jild Therapies not only to domestic patients but to foreigners also who are keenly interested to undergo Ilaj bit Tadbeer which is gaining international attention to keep a sound and disease-free life.

The Institute will also focus on strategies to provide consultation, expertise and advice to the general public for maintaining sound and disease-free life in order to keep away from life style disorders and to get rid of various ageing related disorders.

Keeping in view these goals and strategies, the Institute proposes the following 15 Year Strategy and the 5 Year Action Plan and Implementation Document.

### 15 Years Strategy

1. To attain deemed to be University status.
2. To attain Institute of National Importance status.

#### 3. ACADEMIC

- To introduce unique innovative skill-based courses in the field of Unani Medicine.
- To adopt latest teaching methodology for Unani Medicine education.
- To act as role model for other institutions and colleges in field of Unani Medicine.
- To start super specialty courses like DM and M.Ch in Unani Medicine.
- To introduce post graduate courses in new subjects of Unani Medicine
- To enrich student evaluation system
- To offer short term certificate courses related to various specialties for Unani professionals.
