Preface

The Right to information Act, 2005 enacted on June 15, 2005, is a tool to promote transparency and accountability in the functioning of every Ministry / Public Authority. The Act empowers every Indian citizen to seek and receive information from Ministries and Public Authorities, thus making the Government and its functionaries more accountable and responsible to the public at large and stake holders in particular.

The Right to Information Act 2005 has empowered every citizen of the country to seek and receive any information from any Ministry or Public Authority in the country without assigning any reason for seeking the information. It is an attempt to move from opaqueness to transparency, ultimately leading to good governance. Broadly, there are two ways by which information needs of the citizens can be met:

- (i) One is to file RTI application seeking information within the time frame specified in the RTI Act through the Public Information Officer of the organization concerned. This mode put an onus for incurring cost on the citizen for seeking information and on Ministries / Public Authorities for receiving, processing and responding to the request for the information. This is a costly and time consuming mode of seeking and furnishing information.
- (ii) The alternative mode which is prescribed in the RTI Act is for pro active and suo motu disclosure. Section 4 (i) (b), 4 (i) (c) and 4 (i) (d) of the RTI Act, 2005 lists categories of information which Public Authorities are required to disclose suo-motu without any request from the citizen. This is called duty to publish on the part of the Ministry / Public Authority. Looking into relevance and importance of suo motu disclosure under Section 4 of the RTI Act 2005 vide Office Memorandum No. 1/6/2011-IR dated 15th April, 2013. The said guidelines issued by Department of Personnel & Training (DOPT) have four chapters viz:
 - (a) Suo-mot disclosure of more items under section 4.
 - (b) Guidelines for digital publication of pro active disclosures under section 4.

- (c) Guidelines for certain clauses of Section 4 (1) (b) such as Section 4 (i) (b) (iii), 4 (i) (b) (xi), 4 (i) (b) (xiv) etc. to make suo-motu disclosure.
- (d) Compliance with provisions of suo-motu disclosure.

Regarding compliance mechanism, DOPT OM dated 15 April 2013 stipulates as under:

- (i) Each Public Authority shall ensure that these guidelines are fully operationalized within the specified time limit.
- (ii) The Action Taken Report (ATR) on the compliance of these guidelines should be sent to the Department of Personnel & Training (DOPT) and Central Information Commission (CIC).
- (iii) Each Public Authority should get its pro active disclosure package audited through third party every year.
- (iv) Third Party audit of the suo-motu disclosure should cover compliance with the pro active disclosures prescribed in the guidelines of Section 4 of the RTI Act, 2005 including adequacy of the items included in the package. The audit should examine whether there are any other types of information which could be pro actively disclosed.

Such audit should be done annually and should be communicated to the Central Information Commission (CIC) and published on the web site of the Ministry / Public Authority concerned. All Ministries / Public Authorities are required to pro actively disclose the names of the third party auditors on their web sites. The Central Information Commission (CIC) is required to examine the third party audit reports and offer advice / recommendations to the concerned Ministry / Public Authority.

In this background National Institute of Unani Medicine awarded the third party audit of their website to NILERD and the audit report is presented in the subsequent chapters.

TABLE OF CONTENTS

| S.No. | | Particulars | Pages |
|-------|-------------|---------------------------------|--------|
| 1. | - | Terminologies | 4 |
| 2. | Chapter – 1 | Introduction | 5 - 18 |
| 3. | Chapter – 2 | Audit Report | 19 -36 |
| 4. | Chapter - 3 | Analysis | 37-38 |
| 5. | Chapter – 4 | Conclusions and Recommendations | 39-40 |

TERMINOLOGIES

Information: Any material in any form. It includes records, documents, memos, e-mails, opinions, advices, press releases, circulars, orders, logbooks, contracts, reports, papers, samples, models, data material held in any electronic form. It also includes information relating to any private body which can be accessed by the public authority under any law for the time being in force.

Right to Information: The right to information includes an access to the information which is held by or under the control of any public authority and includes the right to inspect the work, document, records, taking notes, extracts or certified copies of documents / records and certified samples of the materials and obtaining information which is also stored in electronic form.

Who can seek information: Section 3 of the Right to Information Act provides as under: "Subject to the provisions of this Act, all citizens shall have the right to information." - Normally, an applicant is not required to submit any proof of citizenship. However, if the CPIO has any doubt about the identity of the applicant he can seek for his proof of identification. The Act gives the right to information only to the citizens of India. It does not make provision for giving information to Corporations, Associations, and Companies etc. which are legal entities / persons but not citizens. However, if an application is made by an employee or office bearer of any Corporation, Association, Company, NGO etc. indicating his name and such employee or office bearer is a citizen of India, information may be supplied to him / her. In such cases, it would be presumed that a citizen has sought information at the address of the Corporation.

Public Authority: A "public authority" is any authority or body or institution of self government established or constituted by or under the Constitution; or by any other law made by the Parliament or a State Legislature; or by notification issued or order made by the Central Government or a State Government. The bodies owned, controlled or substantially financed by the Central Government or a State Government and non-Government organizations substantially financed by the Central Government or a State Government also fall within the definition of public authority.

CHAPTER-1 INTRODUCTION

1.1 Context

The Right to Information Act, which was introduced in 2005, has the basic objective to empower the citizens, promote transparency and accountability in the working of the Government, contain corruption, and make our democracy work for the people in real sense. It's underlying premises is that an informed citizen is better equipped to keep necessary vigil on the instruments of governance and make the government more accountable to the governed. The Act has allowed the citizen unprecedented access to information under the control of public authorities.

Right to Information Act 2005 has two dimensions. The first is provision of machinery through which a citizen could seek information from public offices. For this purpose, an information seeker submits her/his queries to a public information officer nominated/appointed in each public office under RTI Act, and in the subsequent process if not satisfied to first and second appellate authority. This is the demand aspect of RTI i.e. on demand the information is provided. The other dimension is voluntary disclosure of information by public authorities (PAs) through a variety of means, principal among which is the disclosure through websites i.e. supplying information. This dimension is covered under Section 4 of the RTI Act and provides the broad outline of the contents of the websites.

Section 4 of the RTI Act comprehensively deals with supply side of information held or under the control of Government and its instrumentalities. Aware that the Right to information cannot be made operational in letter and spirit without the government's initiative to proactively disclose maximum information, the Department of Personnel and Training (DoPT) directed all the PAs, vide its order dated April 15, 2013, to ensure regular audit of mandatory disclosures by a third party. Specifically, the DoPT directed as under:

Right to Information Act 2005 mandates timely response to citizen requests for government information. It is an initiative taken by Department of Personnel and Training, Ministry of Personnel, Public Grievances and Pensions to provide a–RTI Portal Gateway to the citizens for

quick search of information on the details of first Appellate Authorities, PIOs etc. amongst others, besides access to RTI related information / disclosures published on the web by various Public Authorities under the government of India as well as the State Governments.

Disclosures under this section are expected to:

- (i) enable the citizen to access the information held by Public Authorities without their having to take recourse to the provisions of RTI Act; and,
- (ii) promote transparency and accountability in the functioning of the government to promote participatory governance.

1.2 Suo-motu Disclosure under RTI Act

Section 4(1)(b) of the RTI Act lays down the information which should be disclosed by Public Authorities on a suo motu or proactive basis. Section 4(2) and Section 4(3) prescribe the method of dissemination of this information. The purpose of suo motu disclosures under Section 4 is to place large amount of information in public domain on a proactive basis to make the functioning of the Public Authorities more transparent and also to reduce the need for filing individual RTI applications.

1.2.1 Guidelines on suo motu disclosure under Section 4 of the RTI Act

Sub-section 4(2) of the RTI Act, 2005 requires every public authority to take steps in accordance with the requirements of clause (b) of sub-section 4(1) to provide as much information *suo motu* to the public at regular intervals through various means of communication, including internet, so that the public have minimum resort to use the Act to obtain information. Accordingly, the Public Authorities may proactively disclose the following items also under the *suo motu* disclosure provisions of Section 4:

1. Information related to Procurement

- Information relating to procurement made by Public Authorities including publication of notice/tender enquiries, corrigenda thereon, and details of bid awards detailing the name of the supplier of goods/services being procured or the works contracts entered or any such combination of these and the rate and total amount at which such procurement or works contract is to be done should be disclosed.
- All information disclosable as per Ministry of Finance, Department of Expenditure's O.M. No 10/1/2011-PPC dated 30th November, 2011 on Mandatory Publication of Tender Enquiries on the Central Public Procurement Portal and O.M. No. 10/3/2012-PPC dated 30th March, 2012 on Implementation of comprehensive end-to-end e-procurement should be disclosed under Section 4.
- At present the limit is fixed at Rs. 10.00 lakhs.
- In case of procurements made through DGS&D Rate Contracts or through Kendriya Bhandar/ NCCF, only award details need to be published.
- However information about procurement which falls within the purview of Section 8 of the RTI Act would be exempt.

2. Public Private Partnerships

- If Public services are proposed to be provided through a Public Private Partnership (PPP), all information relating to the PPPs must be disclosed in the public domain by the Public Authority entering into the PPP contract/concession agreement.
- This may include details of the Special Purpose Vehicle (SPV), if any set up, detailed project reports, concession agreements, operation and maintenance manuals and other documents generated as part of the implementation of the PPP project.
- The documents under the ambit of the exemption from disclosure of information under section 8(1)(d) and 8(1)(j) of the RTI Act would not be disclosed *suo motu*.
- Further, information about fees, tolls, or other kinds of revenue that may be collected
 under authorization from the Government, information in respect of outputs and
 outcomes, process of selection of the private sector party may also be proactively
 disclosed.
- All payments made under the PPP project may also be disclosed in a periodic manner along with the purpose of making such payment.

3. Transfer Policy and Transfer Orders

- Transfer policy for different grades/cadres of employees serving in Public Authority should be proactively disclosed.
- All transfer orders should be publicized through the website or in any other manner listed in Section 4(4) of the Act.
- These guidelines would not be applicable in cases of transfers made keeping in view sovereignty, integrity, security, strategic, scientific or economic interests of the State and the exemptions covered under Section 8 of the Act. These instructions would not apply to security and intelligence organizations under the second schedule of the RTI Act.

4. RTI Applications

- All Public Authorities shall proactively disclose RTI applications and appeals received and their responses, on the websites maintained by Public Authorities with search facility based on key words.
- RTI applications and appeals received and their responses relating to the personal information of an individual may not be disclosed, as they do not serve any public interest.

5. CAG & PAC paras

- Public Authorities may proactively disclose the CAG & PAC paras and the Action Taken Reports (ATRs) only after these have been laid on the table of both the houses of the Parliament.
- However, CAG paras dealing with information about the issues of sovereignty, integrity, security, strategic, scientific or economic interests of the State and information covered under Section 8 of the RTI Act would be exempt.

6. Citizens Charter

• Citizens Charter prepared by the Ministry/Department, as part of the Result Framework Document of the department/organization should be proactively disclosed.

• Six monthly reports on the performance against the benchmarks set in Citizens Charter should also be displayed on the website of public authorities.

7. Discretionary and Non-discretionary grants

- All discretionary /non-discretionary grants/ allocations to state governments/ NGOs/Other institutions by Ministry/Department should be placed on the website of the Ministry/Department concerned.
- Annual Accounts of all legal entities who are provided grants by Public Authorities should be made available through publication, directly or indirectly on the Public Authority's website.
- Disclosures would be subject to provisions of Section 8 to 11 of the RTI Act.

8. Foreign Tours of PM/Ministers

- A large number of RTI queries are being filed on official tours undertaken by Ministers
 or officials of various Government Ministries/Departments. Information regarding the
 nature, place and period of foreign and domestic tours of Prime Minister are already
 disclosed on the PMO's website.
- As per DoPT's OM No. 1/8/2012-IR dated 11/9/2012, Public Authorities may proactively disclose the details of foreign and domestic official tours undertaken by the Minister(s) and officials of the rank of Joint Secretary to the Government of India and above and Heads of Departments, since 1st January, 2012. The disclosures may be updated once every quarter.
- Information to be disclosed proactively may contain nature of the official tour, places
 visited, the period, number of people included in the official delegation and total cost of
 such travel undertaken.
- Exemptions under Section 8 of the RTI Act, 2005 may be kept in view while disclosing
 the information. These instructions would not apply to security and intelligence
 organizations under the second schedule of the RTI Act, 2005 and CVOs of public
 authorities.

1.2.2 Guidelines for digital publication of proactive disclosure under Section 4

Section 4 lays down that information should be provided through many mediums depending upon the level of the public authority and the recipient of information (for example, in case of Panchayat, wall painting may be more effective means of dissemination of information), and that more and more proactive disclosure would gradually be made through Internet. There is need for more clear guidelines for web-based publication of information for disclosure.

The Department of Information Technology has been working on setting of technical standards for government websites and the Department of Administrative Reforms & Public Grievances has published guidelines for websites of Government Departments. These guidelines prescribe the manner in which websites need to be designed and how information should be disclosed. While adhering to the standards of government guidelines as laid down by Department of Information Technology and Department of Administrative Reforms & Public Grievances, the following principles additionally should also be kept in view to ensure that websites' disclosures are complete, easily accessible, technology and platform neutral and in a form which conveys the desired information in an effective and user-friendly manner.

- a) It should be the endeavor of all public authorities that all entitlements to citizens and all transactions between the citizen and government are gradually made available through computer based interface. The 'Electronic Delivery of Services Bill, 2012' under formulation in Government of India would provide the necessary impetus.
- b) Websites should contain detailed information from the point of origin to the point of delivery of entitlements/services provided by the Public Authorities to citizens.
- c) Orders of the public authority should be uploaded on the website immediately after they have been issued.
- d) Website should contain all the relevant Acts, Rules, forms and other documents which are normally accessed by citizens.
- e) Websites should have detailed directory of key contacts, details of officials of the Public Authority.

- f) It is obligatory under Section 4(1)(b)(xiv) of the RTI Act for every Public Authority to proactively disclose 'details in respect of the information, available to or held by it, reduced in an electronic form'. The website should therefore indicate which digitally held information is made available publicly over the internet and which is not.
- g) As departments reorganize their systems and processes to enable themselves for electronic service delivery, it is recommended that the requirement of bringing due transparency as provided in the RTI Act is given adequate consideration at the design stage itself.
- h) To maintain reliability of information and its real time updation, information generation in a digital form should be automatically updated on the basis of key work outputs, like a muster roll and salary slip (NREGA in Andhra Pradesh) or formalization of a government order (Andhra Pradesh). Such an approach will lead to automation of proactive disclosure.
- i) Information must be presented from a user's perspective, which may require re-arranging it, simplifying it etc. However, original documents in original formats should continue to be made available because these are needed for community monitoring of government's functioning.
- j) The 'National Data Sharing and Accessibility Policy' by the Department of Science and Technology is based on the principle that all publicly funded information should be readily available. The policy has been notified in March, 2012 and the schedule should be strictly adhered to.
- k) Information and data should be presented in open data formats whereby it can be pulled by different Application Protocol Interfaces to be used in different fashions more appropriate to specific contexts and needs. Information/ data can, for instance, be presented in powerful visual ways using visualization techniques. Such visual representation of information/ data can give insights that may remain largely hidden in a textual or tabular presentation of data. In some contexts, pictures and audio/videos recordings etc may be more useful. There have been moves in some parts of the country to video record Gram Sabha meetings. A picture of a NREGA worksite, for instance, may tell much more than words can. All such different media and forms should be used for proactive disclosure.
- Every webpage displaying information or data proactively disclosed under the RTI Act should, on the top right corner, display the mandatory field 'Date last updated (DD/MM/YY)'.

1.2.3 Guidelines for certain clauses of Section 4(1)(b) to make disclosure more effective

The elements of information listed in the various sub-clauses of Section 4(1)(b) must be disclosed in an integrated manner. For example, the functions and responsibilities of a public authority cannot be understood in isolation from the powers and functions of its employees, the norms that inform its decision making processes and the rules, instructions and manuals that are used in the discharge of its functions. Description of one element presupposes the existence of another. So every public authority must endeavour to integrate the information mentioned in these sub-clauses while preparing voluntary disclosure materials.

Considering that disclosure in regard to certain sub-clauses have been relatively weak, detailed guidelines for four sub-clauses are given below:

A. Guidelines for section 4(1)(b)(iii) - "the procedure followed in the decision-making processes, including channels of supervision and accountability".

All government departments have specific duties and responsibilities under the respective Allocation of Business Rules (AOB) issued by the appropriate Government. The constitutional provisions and statutes each department is required to implement are clearly laid down in the AOB. The manner of disposal of matters assigned to each Department/Ministry is described in the Transaction of Business Rules (TOB). Additionally, every department would have a specific set of schemes and development programmes which they are required to implement directly or through their subordinate offices or other designated agencies. These documents contain the specific operations that every Public Authority is required to undertake in the course of implementing the programme or scheme. Every operation mandated under the AOB read with the TOB would be linked to a specific decision-making chain. All government officers have to follow laid down office procedure manual or the other rules which gives details of how representations, petitions and applications from citizens must be dealt with. Templates, formats, and basic steps of decision-making are briefly explained in such manuals. These descriptions constitute the elements of decision-making processes in general.

Additionally, in the routine work of governance, government functionaries are required to make decisions in a discretionary manner but broad guiding principles are laid down in some rule or the other. For example, the General Financial Rules lay down procedures for a variety of operations relating to government finances. How sanction must be accorded for incurring expenditure; how losses to government must be reported; how responsibility for losses may be fixed on any government servant; how budgets, demand for grants are prepared and submitted; how public works must be sanctioned and executed; how commodities and services may be procured by a public authority; are all explained in these manuals which are updated from time to time. The challenge is to present a simplified version of the decision-making procedure that is of interest to a common citizen.

In view of the above, the guidelines for detailing the decision making processes are as follows:

- (a) Every public authority should specifically identify the major outputs/ tangible results/ services/ goods, as applicable, that it is responsible for providing to the public or to whosoever is the client of the public authority.
- (b) In respect of (a) above, the decision-making chain should be identified in the form of a flow chart explaining the rank/grade of the public functionaries involved in the decision-making process and the specific stages in the decision-making hierarchy.
- (c) The powers of each officer including powers of supervision over subordinates involved in the chain of decision-making must also be spelt out next to the flow chart or in a simple bullet-pointed format in a text-box. The exceptional circumstances when such standard decision-making processes may be overridden and by whom, should also be explained clearly. Where decentralization of decision-making has occurred in order to grant greater autonomy to public authorities, such procedures must also be clearly explained.
- (d) This design of presentation should then be extended to cover all statutory and discretionary operations that are part of the public authority's mandate under the AOB read with the TOB.
- (e) In the event of a public authority altering an existing decision-making process or adopting an entirely new process, such changes must be explained in simple language in order to enable people to easily understand the changes made.

B. Guidelines for Section 4(1)(b)(iv) - "the norms set by it for the discharge of its functions".

- Primarily, the intention of this clause is that every public authority should proactively
 disclose the standards by which its performance should be judged. Norms may be
 qualitative or quantitative in nature, or temporal or statutory norms. In order to ensure
 compliance with this clause, public authorities would need to disclose norms for major
 functions that are being performed.
- Citizen Charters, which are mandatory, for each central Ministry/Department/Authority, are good examples of vehicles created for laying down norms of performance for major functions and for monitoring achievements against those standards.
- Wherever norms have been specified for the discharge of its functions by any statute or government orders, they should be proactively disclosed, particularly linking them with the decision making processes as detailed earlier. All Public Authorities should proactively disclose the following:
- a) Defining the services and goods that the particular public authority/office provides directly (or indirectly through any other agency/contractor).
- b) Detailing and describing the processes by which the public can access and/or receive the goods and services that they are entitled to, from the public authority/office along with the forms, if any prescribed, for use by both the applicant and the service providing agency. Links to such forms (online), wherever available, should be given.
- c) Describing the conditions, criteria and priorities under which a person becomes eligible for the goods and services, and consequently the categories of people who are entitled to receive the goods and services.
- d) Defining the quantitative and tangible parameters, (weight, size, frequency etc,) and timelines, that are applicable to the goods and services that are accessible to the public.
- e) Defining the qualitative and quantitative outcomes that each public authority/office plans to achieve through the goods and services that it was obligated to provide.
- f) Laying down individual responsibility for providing the goods and services (who is responsible for delivery/implementation and who is responsible for supervision).

C. Guidelines for Section 4(1)(b)(xi)- "the budget allocated to each of its agency, indicating the particulars of all plans, proposed expenditures and reports on disbursements made".

The public authorities while disclosing their budgets shall undertake the following:

- (a) Keeping in view of the technical nature of the government budgets, it is essential that Ministries/Departments prepare simplified versions of their budgets which can be understood easily by general public and place them in public domain. Budgets and their periodic monitoring reports may also be presented in a more user-friendly manner through graphs and tables, etc.
- (b) Outcome budget being prepared by Ministries/Departments of Government of India should be prominently displayed and be used as a basis to identify physical targets planned during the budgetary period and the actual achievement vis-à-vis those targets. A monthly programme implementation calendar method of reporting being followed in Karnataka is a useful model.
- (c) Funds released to various autonomous organizations/ statutory organizations/ attached offices/ Public Sector Enterprises/ Societies/ NGOs/ Corporations etc. should be put on the website on a quarterly basis and budgets of such authorities may be made accessible through links from the website of the Ministry/Department. If a subsidiary does not have a website then the budgets and expenditure reports of such subsidiary authority may be uploaded on the website of the principal Public Authority.
- (d) Wherever required by law or executive instruction, sector specific allocations and achievements of every department or public authority (where feasible) must be highlighted. For example, budget allocation and target focusing on gender, children, Scheduled Castes and Scheduled Tribes and religious minorities should be specially highlighted. The sector-wise breakup of these targets and actual outcomes must be given in simplified form to enable the vulnerable segments of society to better understand the budgets of public authorities.

D. Guidelines for Section 4(1)(b)(xiv) – details in respect of information, available to or held by it, reduced in an electronic form.

On one hand, this clause serves as a means of proactively disclosing the progress made in computerizing information under Section 4(1)(a) of the RTI Act in a periodic manner. On the other, it provides people with clarity about the kinds of electronic information that, although not held by the public authority, is available to them. For example, the stocks of ration available with individual fair price shops may not be held by the District Civil Supplies office, but may be available at a subordinate formation.

- Keeping in view the varied levels of computerization of records and documents in public
 authorities, data about records that have been digitized may be proactively disclosed on
 the respective websites, excluding those records /files /information that are exempted
 under Section 8.
- The data about digitized record may include the name of the record and any categorization or indexing used; the subject matter and any other information that is required to be compiled in relation to a file as prescribed by Manual of Office Procedure (and to be prescribed by MOP for electronic records that is under finalization by DARPG), the division/section/unit/office where the record is normally held; the person, with designation, responsible for maintaining the record; and the life span of the record, as prescribed in the relevant record retention schedule.

1.2.4 Compliance with Provisions of *suo motu* (proactive) disclosure under the RTI Act

- Each Ministry/Public Authority shall ensure that these guidelines are fully operationalized within a period of 6 months from the date of their issue.
- Proactive disclosure as per these guidelines would require collating a large quantum of
 information and digitizing it. For this purpose, Ministries/Public Authorities may engage
 consultants or outsource such work to expeditiously comply with these guidelines. For
 this purpose, the plan/non-plan funds of that department may be utilized.
- The Action Taken Report on the compliance of these guidelines should be sent, along with the URL link, to the DoPT and Central Information Commission soon after the expiry of the initial period of 6 months.

- Each Ministry/ Public Authority should get its proactive disclosure package audited by third party every year. The audit should cover compliance with the proactive disclosure guidelines as well as adequacy of the items included in the package. The audit should examine whether there are any other types of information which could be proactively disclosed. Such audit should be done annually and should be communicated to the Central Information Commission annually through publication on their own websites. All Public Authorities should proactively disclose the names of the third party auditors on their website. For carrying out third party audit through outside consultants also, Ministries/Public Authorities should utilize their plan/non-plan funds.
- The Central Information Commission should examine the third-party audit reports for each Ministry/Public Authority and offer advice/recommendations to the concerned Ministries/ Public Authorities.
- Central Information Commission should carry out sample audit of few of the Ministries/
 Public Authorities each year with regard to adequacy of items included as well as compliance of the Ministry/Public Authority with these guidelines.
- Compliance with the proactive disclosure guidelines, its audit by third party and its communication to the Central Information Commission should be included as RFD target.

1.2.5 Nodal Officer

Each Central Ministry/ Public Authority should appoint a senior officer not below the rank of a Joint Secretary and not below rank of Additional HOD in case of attached offices for ensuring compliance with the proactive disclosure guidelines. The Nodal Officer would work under the supervision of the Secretary of the Ministry/Department or the HOD of the attached office, as the case may be. Nodal Officers of Ministry/Department and HOD separately should also ensure that the formations below the Ministry/Department/Attached Office also disclose the information as per the proactive disclosure guidelines.

1.2.6 Annual Reports to Parliament/Legislatures

Government has issued directions to all Ministries/Departments to include a chapter on RTI Act in their Annual Reports submitted to the Parliament. Details about compliance with proactive

disclosure guidelines should mandatorily be included in the relevant chapter in Annual Report of Ministry/Department.

1.3 Objectives

The objectives of the task are to:

- 1. To study the information disclosed by NIUM proactively under Section 4(1)(b).
- 2. To examine the level of compliance of the detailed guidelines regarding implementation of suo motu disclosure under Section 4 of the RTI Act by NIUM.
- 3. To help identify the information gaps in the proactive disclosures; and
- 4. To suggest appropriate measures to foster better compliance with the provisions of the RTI act relating to proactive disclosure and make the implementation of the guidelines more effective.

1.4 **Methodology**

A comprehensive format for containing all the relevant indicators has been designed and developed by Central Information Commission (CIC) for evaluating disclosure by Public Authorities (PAs). The entire process is done online where the PA first submits a self appraisal which is then audited by a third party who submits the third party audit report to CIC. The format has six broad categories namely;

- 1. Organsiation and Function
- 2. Budget and Programmes
- 3. Publicity and Public Interface
- 4. E-Governance
- 5. Information as Prescribed
- 6. Information Disclosed on Own Initiative.

It is under these six categories, that website of NIUM has been audited.

Name of the Authority Being Audited: National Institute of Unani Medicine

CHAPTER-4

CONCLUSIONS AND RECOMMENDATIONS

A perusal of the website of NIUM indicates that although substantial amount of information is available about its activities and functions, however, the disclosure of Information under Section 4(7)(b) of the RTI Act is incomplete and partial and the information is not being updated regularly on the website.

There is scope for improvement in a number of areas. In order therefore to make the website more user friendly and citizen centric, the following conclusions / observations may be considered for implementation:

- (a) Duties and Responsibilities of Officials should be available in detail on the website.
- (b) Work allocation, procedure followed in decision making, norms of discharge of functions should be uploaded in more details on the website.
- (c) Complete details of the specific Acts, Rules, Regulations, Instruments, Manuals, OMs etc. should be available at one place under one link.
- (d) The details of Committees, Councils, Boards should be uploaded on the website wherever feasible.
- (e) Information about disciplinary action proposed / taken on employees should be available on the website in detail.
- (f) Budget should be presented in more details under a heading "Budget" where demand for grants and expenditure should be available for public. Proposed expenditure should be listed in a Manual under Section 4 (1) (b) of the Act
- (g) The amount budgeted for foreign and domestic tours along with number of tours made by officials, the purpose of the visit, amount spent, and the team should be available in public domain. wherever feasible should be displayed on the website.
- (h) Details of the grievance redressal mechanism should be available on the website in detail
- (i) Details of applications received under RTI and information provided and appeals received and order issued should be given monthly.
- (j) Details about Committee of PIOs/FAAs which rich experience in RTI to identify frequently sought information under RTI should be uploaded on the website.

Recommendations:

For better implementation of the suo-motu disclosure of information following modifications and updations are needed on the NIUM's website:

- (a) In order to facilitate citizen's requirement, all information which is to be disclosed suomotu should be either available under RTI heading or should be accessible through a link through RTI heading.
- (b) Home Page should provide direct information about financial aspects including budget, expenditure so that a citizen does not have to spend time searching annual reports.
- (c) The website should be made more user friendly, and the information is required to be proactively disclosed under the Act and guidelines to enhance transparency and openness.
- (d) To maintain the reliability of information timely updating of the information is a must. However the website has not been updated since 24.08.2022 Therefore, it is required that a system is created for automatic updation of information. based on key word outputs.
- (e) The RTI Manuals should be more descriptive.
- (f) The names, designation and contact details of PIO/CPIO should be displayed on the home page.
